CARE SECURITY

What is PREFERRED Access?

Larksfield Place PREFERRED Access is for those who wish to have Larksfield involved in their care coordination and discharge planning when hospitalized or in need of skilled nursing/rehabilitation, home health, outpatient care or hospice.

Why Larksfield Place?

Larksfield specializes in the care of senior adults beyond the hospital. (We operate one of the few **5 star fully-ranked-in-every-category** skilled nursing facilities within 100 miles.) We also wrap this same level of care into our home health agency. Best of all, none of this excellence comes at a higher price. Much of it, covered by Medicare, is free or with nominal co-payments.

Why should you choose Larksfield Place Rehabilitation for your short-term rehab?

Larksfield Place has:

- The highest 5-Star rating by Medicare
- Therapists with specialized certifications; highly educated and experienced.
- Some of the highest staffing levels in the country
- Outstanding outcomes; nationally ranked
- Nationally recognized staff
- Home health care for the full continuum

“Care Security”

with Larksfield PREFERRED Access

Achieving care security is as easy as completing a form. With PREFERRED Access, seniors and their families can pre-plan for a skilled nursing/rehabilitation stay, home health need, transitional or respite stay with Larksfield.

Information is secure and we are staffed to accommodate your care needs directly from a hospital stay or emergency room visit or from your doctor's office, if need be.

We are able to coordinate your rehab care with your doctor and hospital discharge planner.

We take care of everything! This will give you security of knowing where you will receive care with the highest ratings possible.

You do not have to be a Larksfield resident to benefit from PREFERRED Access.

Call **Larksfield Place at 316.636.1000**
