BEST CHOICE

When it comes to living well, Larksfeld is the choice for Wichitans 62 and older. No other organization in South Central Kansas can match the healthcare and progressive innovations that Larksfeld provides. With over thirty-five years of unparalleled value, a full continuum of care and a history of the highest rated and respected services, Larksfeld Place is the best choice.

OUR MISSION

As the premier retirement community of South Central Kansas, we exist to enrich the lives of discerning older adults, by providing distinctive lifestyle, health and wellness services.

We accept direct admissions into our health services neighborhoods, and welcome all your questions.

For the whole story
or to schedule a tour,
please call **(316) 858-3910**.

A LIFE PLAN COMMUNITY

A LARKSFIELD PLACE ADVANTAGE

Larksfield Place is a senior living community designed for independent adults, offering a maintenance-free lifestyle, with the promise of additional health care services should the need arise, at any stage.

PLANNING AHEAD IS KEY

Residents join our community while they are active and still able to live independently. They meet friends, join activities and settle into their home. Later, if they require additional health care, they can receive it right on the same campus from health care staff they already know.

Admission requires that applicants meet both financial and health requirements. Larksfield Place is a not-for-profit charitable organization, and our contract provides important advantages.

THE LARKSFIELD ADVANTAGE

- A percentage of the entrance fee is refundable to you or your estate in the event of your passing, or if you leave the community
- Guaranteed access to Assisted Living, Memory Support or Skilled Nursing for as long as you need
- Benevolent fund to assist financially struggling residents
- Consistently high healthcare ratings and staff ratios

The Gallery at Larksfield Place hosts a variety of artwork from residents' personal collections and off-campus artists.

INDEPENDENT LIVING

At Larksfield Place, you can continue to live your active independent life the way you choose, knowing your future health care needs are met. You are free from the burdens of traditional home ownership.

Residents live vibrant lives and participate in a wide variety of outside and indoor activities, both on campus and off.

On campus, residents can pursue their passions and enjoy any number of activities including:

- Fitness classes, with indoor pool and putting green
- Creative art classes
- Music classes and recitals
- Write a personal story with help from our "I Witness to History" program
- Educational and cultural seminars

- Walking and biking across our beautiful campus
- Themed parties, events and socials

While Larksfield Place offers a world of sophisticated amenities and rewarding activities just outside your door, you will be pleased to discover you can choose the size of apartment home or villa, with options from 600 to 2,000 square feet.

**ASSISTED LIVING,
THE WAY IT SHOULD BE**

*A range of enrichment programs
provide an energizing, purposeful life.
Enjoy music on the Terrace, relaxing by
the Fireside, special programs and
activities in the Auditorium.*

ASSISTED LIVING

At Larksfield Place, Assisted Living provides the same services as our Independent Living, but goes beyond to provide supportive services and nursing care for those who need some assistance with activities of daily living, including the management of medications, bathing, dressing and personal care. Licensed nursing supervision and therapeutic activities are provided 24-hours a day, seven days a week.

Here, you will have access to the skilled, proactive care you need, whenever you need it. All the programs and activities we have make it feel like a real neighborhood ... and that's because it is — with the gentle, attentive help that lets you enjoy it to the fullest.

Our Assisted Living community is built on the very best assisted living ideas and practices from around the country. It includes its

own Tea Room and Tap Room, a dedicated office for visiting physicians, a state-of-the-art wellness center, fine dining, massage therapy — even its own beauty salon.

Its stylish apartment homes are the most spacious in the area. It's assisted living the way it should be, and the way you want it to be.

MONTESSORI® INSPIRED MEMORY SUPPORT

Montessori Inspired Lifestyle®

Larksfield Memory Support offers Montessori Inspired Lifestyle®, a positive approach to providing care for adults living with dementia or Alzheimer's disease. The Montessori Inspired Lifestyle® approach of care is based on the methods of Maria Montessori, as adapted for adults by Dr. Cameron Camp, founder of the Center for Applied Research in Dementia. This approach allows residents to focus on their individual strengths and engage in meaningful activities.

Residents are supported through specially designed environments, engaging social activities, and individualized care. Caregivers working in memory support receive training and ongoing in-service continuing education that relates to dementia and Alzheimer's disease.

Our nurses stay with Larksfield Place because they love working with our residents.

The residents' families become the staff's extended family.

5 STAR SKILLED NURSING

Imagine a care environment where the caregivers truly enjoy coming to work every day. It's easy for us to imagine, because that's how it is in Skilled Nursing at Larksfeld Place.

Our Medicare-certified Skilled Nursing Units provide care 24-hours a day, seven days a week by licensed nurses, for residents who require on-going monitoring, assessment and treatment. In addition, a full range of rehabilitation therapies, social services, nutritional care, pharmacy and activities are provided. A rehabilitation gym and mock apartment is located on-site to help residents achieve goals and return to their prior level of function.

Our skilled nursing team is comprised of only highly trained, experienced professionals—with unusually high patient-to-staff ratios. Our integrated approach brings together other specialists, including occupational, physical and speech therapists, dietitians and social workers.

Also highly valued are our unique partnerships with KU School of Medicine-Wichita, Wichita State University, Wichita Area Technical College and Wesley Medical Center/Wesley Woodlawn.

These partnerships enhance the unique and innovative services only available to Larksfeld residents.

The atmosphere of care throughout Skilled Nursing creates a consistently warm, homelike environment that is truly resident focused.

Larksfeld Place is among the highest rated senior health care provider in Wichita – 5 Stars by the Centers for Medicare and Medicaid, rated “Best” by U.S. News and World Report.

REHABILITATION

Inpatient home care and outpatient rehabilitation programs at Larksfield Place will get you back to being yourself quicker.

Larksfield Place offers a full range of rehabilitation services staffed by our own licensed, certified therapists who have extensive experience working with older adults. They work closely with other members of the care-giving team so that all nursing, dining, and rehabilitative services are provided as an integrated approach with the benefit of maintaining consistency in care.

Larksfield rehabilitation consists of a complete on-site rehab gym, pool, modalities including ultrasound, e-stim, diathermy, weights, cardio equipment and private treatment areas.

When patients are admitted into outpatient programs, it indicates that the patients are doing well enough to be home, and their doctors have confidence in them completing their course of therapy through outpatient rehabilitation. Typically, a therapy session lasts from 30 minutes to an hour.

Physical Therapy assists with everything from increasing mobility after a stroke to improving muscle tone through personalized

exercise programs to prevent, identify, alleviate or compensate for neuro-musculoskeletal dysfunctions.

Occupational Therapy assists individuals with adapting to their social and physical environment through education, training, cognitive activities, utilization of adaptive techniques or equipment to overcome physical disabilities and customized exercises.

Speech-Language Therapy aids with speech recovery, language and swallowing functions as well as memory by helping to address problems with communication and swallowing dysfunction.

REHABILITATION PROGRAMS INCLUDE:

Orthopedic Rehabilitation

Neuro-Rehabilitation

Cardiac Rehabilitation

Pulmonary Rehabilitation

Stroke Rehabilitation

General Rehabilitation
